Precision Cleaning Products
Advanced Products For Advanced Cleaning

**Total Solution.** Petroferm offers manufacturers the most complete range of cleaning products on the market. From manual cleaning to sophisticated parts washing, Petroferm’s sales and technical professionals are trained to help customers select, evaluate, and implement the most appropriate products and processes. By working together with top cleaning equipment manufacturers, we can present a turnkey approach that addresses requirements for both throughput and cleanliness.

**Trusted Brands For High Reliability Cleaning.** For more than 25 years, Petroferm has developed and produced solutions engineered to meet industries’ toughest cleaning challenges. Brands such as AXAREL®, BIOACT®, CleanSafe™, LENIUM®, and RustSafe™ have been trusted and approved for cleaning high-reliability components at companies in over 30 countries worldwide.

**Safety, Health, & Environmental Responsibility** are cornerstones of both our products and work practices. From reducing VOC emissions to eliminating exposures to limiting fire risks, we have extensive experience helping customers find suitable replacements for acetone, IPA, MEK, MPK, mineral spirits, trichloroethylene (TCE), perchloroethylene (PERC), methylene chloride (MeCl), HCFCs and other hazardous solvents. Contact us today to learn how we can address your solvent substitution initiatives.

**Petroferm products are used in the following applications:**

- General Purpose Cleaning and Degreasing
- Fine Metal Precision Cleaning
- Composite and Plastics Cleaning
- Surface Pretreatment
- Pre- and Post-Inspection Cleaning
- Adhesive and Mastic Removal
- Removing Sealant Residues
- Asphalt Extraction and Release Agents
- Corrosion Protection
- Wax Removal and Debloking
- Powdered Metal Debinding
- Wax Masking
- Silicone Deposition and Removal
- Tube Swelling
## IMMERSION CLEANERS

Petroferm offers a full complement of cleaning technologies engineered to operate in both immersion and ultrasonic cleaning equipment.

Approved and Certified Product Symbols Legend:

- **Aerospace Approvals**
- **USDA Certified Biobased**
**MANUAL CLEANERS**

Engineered for low impact on health, safety, and the environment, Petroferm’s manual cleaners are suitable drop-in replacements for acetone, isopropyl alcohol (IPA), methyl ethyl ketone (MEK), mineral spirits, and other hazardous solvents.

</thead>
</table>
| BIOACT 105    | 105°F/41°C  | • Safe, fast drying alternative to acetone, IPA, MEK, MPK and other hazardous solvents  
• Lowers workplace exposures, emissions, fire risk and usage  
• Removes adhesive and sealant residues, greases, lubricants, oils, silicones, waxes |
| BIOACT 105 Wipes | 105°F/41°C | • BIOACT 105 in pre-saturated wipes that are safe, convenient and economical |
| AXAREL 1000   | 127°F/53°C  | • Low odor, fast drying solvent designed for general clean-up and surface preparation  
• Replaces acetone, IPA, mineral spirits, and other hazardous solvents  
• Lowers workplace exposures, emissions, fire risk and usage |
| AXAREL 1000 Wipes | 127°F/53°C | • AXAREL 1000 in pre-saturated wipes that are safe, convenient and economical |
| AXAREL 2000   | 144°F/62°C  | • Low odor solvent with a slightly higher flash point than AXAREL 1000  
• Substitute for IPA, mineral spirits, Stoddard solvent, and PD-680 solvents  
• Lowers workplace exposures, emissions, fire risk and usage |
| LENIUM FHD    | None        | • Extremely fast drying fluorinated solvent  
• Non-flammable, non-ozone depleting, low toxicity |

**SPRAY CLEANERS**

Designed for inline and cabinet parts washers, Petroferm’s advanced line of low-foaming solutions exhibits excellent materials compatibility and the versatility of adjusting concentrations and temperatures.

<table>

| CleanSafe 7448 | Aqueous, Alkaline | • Aggressive cleaner for steel alloys  
• Removes heavy greases, lubricants, metalworking fluids, oils  
• Contains corrosion inhibitors |
| CleanSafe 7449 YHA | Aqueous, Alkaline | • Non-etching cleaner for aluminum alloys  
• Removes heavy greases, lubricants, metalworking fluids, oils |
| CleanSafe 7200 DTX | Aqueous, Alkaline | • Cleaner for both ferrous and non-ferrous alloys  
• Protects against oxidation of copper and steel alloys |
| CleanSafe 7950 | Aqueous, Alkaline | • Easy rinsing cleaner for stainless steel and titanium alloys  
• Does not contain silicates |
| CleanSafe 787C | Aqueous, Alkaline | • Non-foaming cleaner designed for highly agitated parts washers  
• Safe for use on all metals, plastics, composites, faying surfaces |
| AXAREL 56     | Solvent       | • Water rinsable cleaner with excellent solvency and high flash point  
• Removes buffing compounds, greases, metalworking fluids, oils, high-melting waxes  
• Used at 5 - 25% |
HALOGENATED SOLVENTS FOR VAPOR DEGREASING

Developed for vapor degreasing equipment, Petroferm offers a full range of solutions suitable for replacing trichloroethylene (TCE), perchloroethylene (PERC), methylene chloride (MeCl), and hydrochlorofluorocarbons (HCFCs).

<table>

| LEMIUM FHD | Fluorinated   | 99°F/37°C     | • Safe, effective alternative to TCE, PERC, MeCl, HCFCs, nPB  
• Non-flammable, non-ozone depleting, low toxicity |
| LEMIUM FRA | Fluorinated   | 108°F/42°C    | • VOC-exempt rinse agent used in bi-solvent and co-solvent vapor degreasing  
• Non-flammable, non-ozone depleting, low toxicity  
• Used in combination with SOLVAG SA-70 (see Immersion Section) |
| LEMIUM GS  | n-Propyl Bromide | 160°F/71°C   | • Highly stabilized alternative to TCE, PERC, MeCl, HCFCs  
• Extend solvent life with SuperBooster additive |

MEDICAL DEVICE CLEANERS AND SURFACE TREATMENTS

Petroferm offers cleaning solutions and surface treatments engineered for a wide range of medical device components, including cardiovascular and orthopedic implants, surgical tools and instruments, and diagnostic equipment.

<table>
<thead>
<tr>
<th>Product</th>
<th>Process</th>

| CleanSafe 585 | Aqueous Cleaning | • Ultrasonic cleaner designed to remove buffing compounds, coolants, oils, particulates  
• Safe for use on metals and plastics including PEEK and UHMW-PE |
| LEMIUM FHD  | Vapor Degreasing | • Safe, fluorinated solvent designed to replace HCFCs and nPB  
• Non-flammable, non-ozone depleting, low toxicity |
| LEMIUM DF   | Deposition Fluid | • Carrier fluid for silicone based lubricants  
• Does not attack sensitive plastic components  
• Also used for manual cleaning |
| LEMIUM TS   | Tube Swelling   | • Swelling fluid for silicone tubing  
• Reversible without material degradation  
• Does not attack sensitive plastic components |
CORROSION INHIBITORS

Designed for steel alloys, Petroferm's line of corrosion inhibitors meets requirements for both short and long-term protection.

<table>

<td>• Non-hazardous alternative to diesel and other hydrocarbons</td>
</tr>
</tbody>
</table>
Petroferm products are used in the following markets and industry segments:

- Aerospace and Aviation
- Asphalt and Road Construction
- Automotive and Light Vehicles
- Electronics and Printed Circuit Boards
- Electrical Equipment and Appliances
- Floor Covering and Carpet
- Hand Tools and Hardware
- Heavy Transportation and Mining
- Furniture and Office Equipment
- Jewelry and Precision Instruments
- Magnetic Devices and Magnets
- Machine Tools and Metal Cutting
- Marine and Floating Vessels
- Medical Device Implants and Surgical Instruments
- Metal Injection Molding (MIM)
- Precision Manufacturing
- Nondestructive Testing (NDT)
- Optics and Optical Instruments
- Rail Transportation, Passenger and Cargo
- Surface Finishing and Coatings
- 3D Rapid Prototyping and Model Making
- Space Vehicle Propulsion, Manned and Unmanned
- Weapons, Ordnances and Munitions
- Wind Turbines and Components
